

The Los Angeles Dodgers currently have a full-time opportunity for the team's Baseball Research and Development (R&D) group. Following you will find a brief description of the position and application process. For additional information, please contact the Human Resources Department at (323) 224-1547.

**Title:** Research & Development Analyst  
**Department:** Baseball Research & Development  
**Status:** Full Time - Hourly  
**Reports to:** Director, Research & Development  
**Posting date:** December 9, 2015  
**Deadline:** January 15, 2016

The Los Angeles Dodgers are seeking an entry-level analyst for the team's Baseball Research and Development (R&D) group. Our current focus is on identifying highly-talented, mathematically-oriented candidates as we seek to build an industry-leading analytics team.

**Job Functions:**

- Modeling and analysis to support one or more research projects
- Testing, automation, and implementation of mathematical and statistical models
- Data collection and ad hoc queries to support model development
- Preparing reports and presentations to disseminate model results
- Other duties and responsibilities as assigned

**Basic Requirements/Qualifications:**

- B.S. in mathematics, statistics, computer science, operations research, or a related quantitative-field
- Experience building and validating mathematical and/or statistical models, preferably in Python or R
- Some computer programming experience
- Familiarity with SQL
- Knowledge of the state of the art within the baseball research community
- Desire to work in a collaborative team environment

**You should definitely contact us if:**

- You want to help build an industry-leading analytics team
- You love to compete, and you want to see the impact of your work on the field and in the box score

When you apply for this job online, please include answers to following questions in your cover letter, using 500 words or fewer:

- What dates are you available for the internship?
- Why are you interested in pursuing this opportunity?
- What experience do you have building mathematical and/or statistical models?

Additionally, if you were recently enrolled in a university degree program (either currently or within the last three years), please include a copy of your unofficial transcript(s) with your application.

**All offers of employment are contingent upon the satisfactory completion of a background screening. Current Los Angeles Dodgers employees should submit a cover letter and resume directly to the Human Resources Department for consideration. All other qualified candidates should submit a cover letter and resume online at [www.dodgers.com](http://www.dodgers.com) under Job Opportunities.**
