## IIRP Tips on Writing Reflection Papers

A reflection paper is not a summary of the course readings or a stream of conscious mind dump on paper.

1. As the diagram suggests, a reflection paper is your identification of the main themes of the readings integrated with your classroom experience and how both affect your thinking and practice.
2. A reflection paper is your chance to add your thoughts and analysis to what you have read and experienced.
3. A reflection paper is meant to illustrate your understanding of the material and how it affects your ideas and possible practice in future.
